## JOB REFERENCE: ASSOCIATE ANALYST

Dear Hiring Manager,

I am excited to apply for the Associate Analyst – IASS-QTT position at EY. As an MCA graduate with a strong foundation in software development, database management, and programming, I am eager to apply my analytical and problem-solving skills to EY's Risk Management Services (RMS) team. My academic background in computer science and mathematics, combined with hands-on experience in Python, Java, MySQL, and PostgreSQL, has equipped me with the technical expertise required for this role. During my academic journey, I have worked on projects like Ease Alloc, a mobile application designed to streamline college examination room allocation, demonstrating my ability to develop structured solutions for complex problems.

Additionally, my certifications in Python Programming, Java, and Tally GST have strengthened my knowledge of data handling and compliance. My proficiency in Git, SQL, and AI tools, along with my adaptability and keen attention to detail, aligns well with EY's commitment to risk assessment and regulatory compliance. I am eager to contribute my skills to EY's mission and look forward to the opportunity to discuss how I can add value to your team.

Sincerely,  
Vishnu A
